STRATEGIC FOUNDATION

Refining the Vision: A Strategic Response

Thank you for your precise and constructive feedback. For this revision, we focused our design process entirely on your three core directives:

01 / OBJECTIVE

Radical Simplification

Streamlining the geometry to ensure clean, memorable marks that guarantee flawless practical application across digital screens, print, and 3D signage.

02 / OBJECTIVE

Distinct Color & Typography

Expanding beyond a purely monochromatic palette to introduce a premium, modern aesthetic that gives Ikhlas its own unique character.

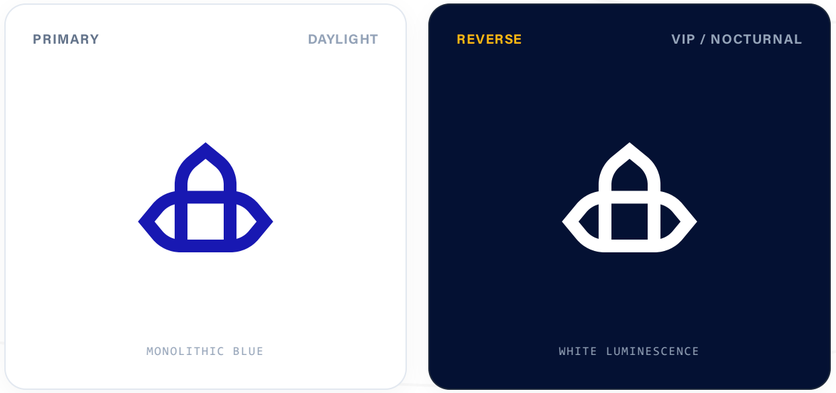

03 / OBJECTIVE

The 20/80 Balance

Ensuring 20% of the design visually roots the brand in the trusted Awash heritage, while 80% establishes a fresh, innovative, and highly distinct identity for Ikhlas in the Islamic banking sector.

CONCEPT 01 — ARCHITECTURAL MARK

Concept 1: The Monolithic Archway

01 / CLARITY

Absolute Clarity & Structural Trust

Addressing the request for ultimate simplicity, we distilled the archway into its purest geometric form. By utilizing a flat, monolithic structure in corporate Awash blue, this logo projects unshakeable financial stability and absolute clarity.

02 / METAPHOR

The Conceptual "Window"

The intersection of the vertical pillar and the horizontal foundational shape creates a literal "window" in the negative space. This visualizes Awash Bank's IFB "window model" operating seamlessly within its conventional branches.

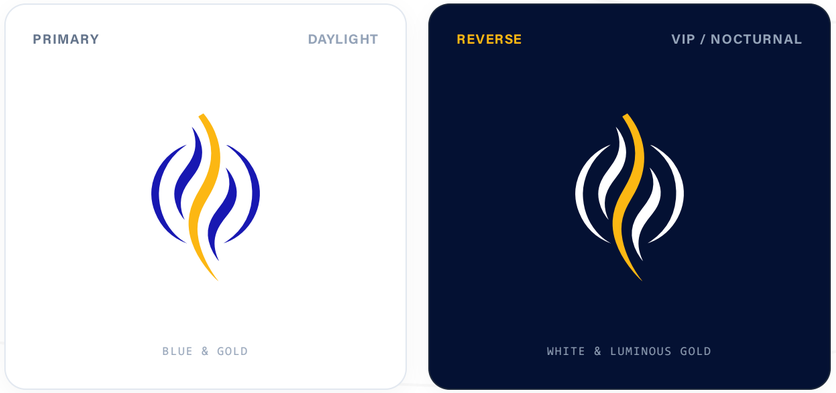

03 / MONOGRAM

Dual Monogram Integration

The geometry cleverly conceals a hidden monogram acting as the 20% connection to the parent brand: the overarching pointed structure forms an "A" for Awash, sheltering the central vertical "I" for Ikhlas.

CONCEPT 02 — FLUID MOMENTUM

Concept 2: The Dynamic Flow

01 / GROWTH

The River of Growth & Purity

Representing a complete creative leap to ensure we have a distinct array of options, this concept introduces fluid, ascending vertical waves. It captures the literal meaning of Ikhlas (purity) while symbolizing ethical financial growth, community nurture, and the life-giving Awash River heritage.

02 / CORE

Premium Distinctiveness & Sharia Core

The central ascending gold pillar represents the pure, Sharia-compliant core of the IFB service, nurtured and protected by the surrounding blue waves. The integration of gold elevates the brand, signaling wealth preservation and high-value ethical banking.

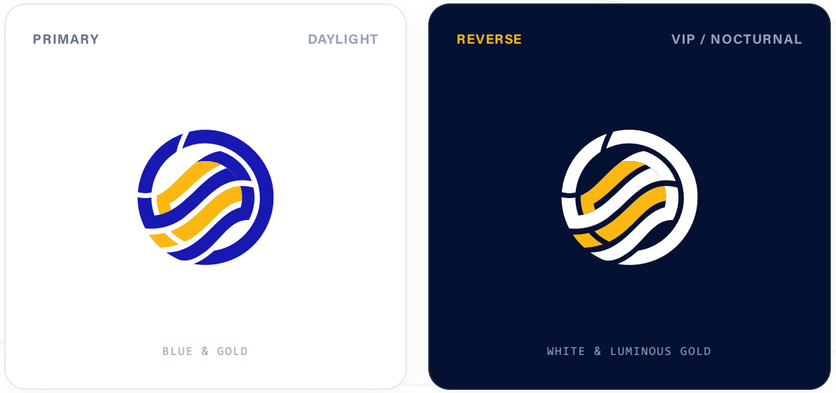

03 / HERITAGE

Subtle Corporate DNA

The 20% connection to the parent bank is elegantly subtle. The two outer blue arcs frame the design into a gentle globe silhouette, while the fluid inner lines evoke the movement and vital flow of the iconic "Awash River."

CONCEPT 03 — CALLIGRAPHIC HERITAGE

Concept 3: The Refined Woven Sphere

01 / REFINEMENT

Distinct Heritage, Streamlined for Tomorrow

We radically simplified our earlier woven concept by removing complex overlapping shadows, making it a bold, flat mark highly optimized for 3D physical signage and responsive digital scaling.

02 / BALANCE

The 20/80 Balance in Action

The outer circular boundary acts as the 20% connection, serving as a clear structural homage to the original Awash Bank globe. The 80% fresh identity is driven by dynamic inner lines forming the Arabic word *"Ikhlas"* (إخلاص).

03 / PALETTE

Expanded Color Architecture

Answering the call for a more distinctive identity, this concept breaks away from a monochromatic approach by introducing a striking Gold accent alongside trusted Awash Blue. This creates a premium, highly recognizable look that stands out in the IFB market.

Concept Comparison & Evaluation Matrix

Side-by-side performance appraisal across the Directorate's core directives: Awash heritage continuity, Sharia distinctiveness, production cost efficiency, and digital scalability.

CONCEPT 01
